ZURICH TECHNOLOGY SOLUTIONS OFFERS A COMPLETE LINE OF OPTICAL TRANSCEIVERS.

Zurich Technology Solutions line of optical transceivers provides our clients with OEM quality product at a tremendous value. We provide solutions in virtually every form factor available and ranging from 100MB to 100GB. All optics are custom coded to operate seamlessly in the OEM switch and are 100% tested in the actual switch environment.

By partnering with Zurich for optical transceivers, our clients receive:

- Savings of up to 70% off OEM list prices
- Optics coded to operate seamlessly in the OEM switch
- Optics 100% tested in the actual switch environment
- Unsurpassed service and support
- OEM quality, tier I contract manufactured product

Zurich only partners with Tier I contract manufacturers, including:

Finisar | InnoLight | Lumentum | Oclaro | NeoPhotonics | Source Photonics | & more

ZURICH PROVIDES CLIENTS WITH UNSURPASSED SERVICE AND SUPPORT ON OUR COMPLETE LINE OF TRANSCEIVERS, INCLUDING:

Lifetime Warranty - Zurich transceivers come with an industry leading lifetime warranty.

Data Center Certified - Zurich's entire product line has been certified compliant within the data center environment.

Custom Programmed - Zurich networking products are programmed in-house and can be custom coded with client name, part number and serial number.

Warranty Safe - Zurich products will not void your OEM warranty, and they present zero service-level risk. Federal law protects you and your rights.

In-system tested - All products are tested within their intended system in an Environmental Test Lab ensuring 100% guaranteed compatibility.

Same Day Shipping - Zurich maintains an extensive inventory ensuring same day shipping on 98% of orders placed before 2:00PST.

Evaluation Program - Zurich allows you to verify the quality and reliability of our products by offering an industry leading 30-day evaluation program.

Network Emulation - Zurich networking products are tested using the Shenick Test and Measurement System which provides comprehensive performance analysis on modules during emulated application flows.

OUR MISSION AT ZURICH TECHNOLOGY SOLUTIONS

At the core of Zurich's mission is our commitment to creating a high quality, high value experience for all parties who are touched by our company – both inside and out of the organization. This foundation has served us well as we have steadily moved to become a leading, trusted provider of low cost, high quality Telecom Network and IT equipment and technical services.
